

## **Council Meeting – 27 January 2022**

### **Agenda Item CC2276/21**

### **Return to In Person Council Meetings**

#### **Introduction**

This paper proposes measures to return to a hybrid meeting system.

#### **Discussion**

In December it was agreed that council meetings in January would be held online following the Government's 'Plan B' guidance, and that this measure would be reviewed at the next full council meeting.

I now propose that Council returns to a hybrid meeting system as had been in place from May 2021.

This would allow up to 6 Councillors attending meetings in person at the Council office with others joining via Zoom.

#### **Recommendations**

That:

1. Council returns to a hybrid meeting style with some councillors and staff attending council & committee meetings in person and some online from February 3.
2. Members of the public are only permitted to join online at the current time.
