

## Full Council Meeting

Thursday 30<sup>th</sup> May 2024

Agenda Item CC2520/24

### Installation of an Additional Welcome Sign

#### Introduction

To discuss a proposal for the installation of a Welcome Sign on the Bywaters Estate.

#### Discussion

During a recent council meeting, it was highlighted that some residents of the Bywaters Estate do not feel fully integrated into the Croxley Green community. To address this concern and promote a sense of belonging, I propose that a new Welcome Sign be installed at the entrance of Bywaters.

The new sign will match the size, style, and materials of the current Welcome Signs at the other entrances to Croxley Green. The sign will be produced by Signs of the Times, who fabricated the existing signs.

The quoted cost to produce the sign, along with delivery and fixing posts, is £2421. This does not include the price to install the sign. We have asked for a price on this, and I hope to receive it before the meeting. We have additionally requested a quote to re-install the sign previously removed on the A412 over the Grand Union Canal when entering Croxley Green from Watford.

We have received confirmation from the Bywaters Estate Management company that they are happy for the sign to be installed at Blackmoor Lane as shown on the picture below. They would arrange for the bush currently in place to be removed.
