

## Leisure, Events & Environment Committee – 7 May 2024

### Agenda Item LEE1832/24

#### Installation of Litter Bin

##### Introduction

This paper proposes the installation of a public litter bin near Little Green School in response to a request from a school pupil.

##### Discussion

A Little Green School pupil has raised concerns to the council regarding the amount of litter being left by the entrance to Little Green School. They noted that there are currently no public litter bins close to the school entrances. I propose that CGPC installs a bin to help drive down the amount of litter.

The proposed location for the litter bin is on the patch of grass opposite the entrance to the school next to the already installed CGPC dog waste bin. See image below.

CGPC currently possesses a spare litter bin of the same wooden style that can be found on The Green. This bin is in a usable condition and can be installed quickly after some cosmetic improvements.

The Parish Council Rangers can install the bin and easily incorporate its emptying into their existing weekly litter collection schedule. If the bin is not used correctly, and instead for the disposal of household waste, the Council should review at that point whether to remove the bin.

##### Recommendations

- That the Council installs a litter bin opposite the entrance to Little Green School.
- That the Rangers add the removal of litter from this bin to their work schedule.
